ZIMBRA Collaboration Suite

- Browser based enterprise class E-Mail, Calendar and Collaboration Platform
- Designed for portability across public and private clouds
- Much simpler to manage and more cost effective to scale
- Helps you to be more organised and more productive than ever before because your information follows you wherever you go
- Fully compatible with standard messaging systems like Apple Mail, MS outlook, MS Exchange; share events ect with each other whether they have Zimbra or not
- So much more than legacy systems like MS Exchange, GroupWise, IBM LotusNotes; your inbox becomes your commutations hub
- Collaboration via Zimbra Briefcase; Don't send documents share them; folders contacts, calendars, documents, tasks with whomever you choose
- Save Briefcase documents to the Cloud; share anything with anyone, tracking multiple versions of documents collaboratively
- Deploy in the Public Cloud, on-premise, in a hybrid solution; not only control but you have a choice
- Simple to deploy and administer; web based administration console accessible from any location

- Everything accessible in one user interface
- E.g. Access maps, look up contacts, dial a call with a simple right-click
- Don't have to leave Zimbra to e.g. to use Webex, Salesforce, SocialCast, Oracel, LinkedIn etc
- Zimlets, OpenSource extensions allow administrators or developers to easily incorporate custom and 3rd party into Zimbra environment
- By far most powerful flexible and open solution for collaboration
- Eliminates need for .pst files; full and incremental backups at a click of a button
- Restore individual mailboxes in real-time

Key Advantages at a Glance

Key Advantages of Zimbra	Exchange 2010	ZCS 7.0
TCO	<p>✗ Expensive license, maintenance & support and requires more administrative time than Zimbra</p> <ul style="list-style-type: none"> • Expensive license and support costs • Outlook and OWA are additional costs • More expensive to scale user storage • Only 15-20% reduction of IT admin time over Exchange 2007 	<p>✓ Cost effectively scale users and save 50% in TCO (with multiple deployment options on-premise, hosted or as an appliance)</p> <ul style="list-style-type: none"> • Less expensive licensing costs Zimbra Desktop is free • Save on storage hardware with hierarchical storage management (HSM) • Zimbra has been shown to have 33% less admin with 4X more users • Save 50% in TCO (with multiple deployment options: bare-metal, multi-tenant or appliance in public or private cloud)
Multi-platform Support	<p>✗ Any non-Microsoft platform is considered a second-class citizen and continues to lag in feature parity and support</p>	<p>✓ Rich web-client and offline experience across multiple platforms</p>
Integration & Customization	<p>✗ Microsoft promotes a closed and proprietary platform</p>	<p>✓ Zimbra is an open & extensible platform</p>

*Be part of the
steamroller NOT
part of the road*

YOU : C-NEST : ZIMBRA

Zimbra Collaboration Suite (ZCS) beats Exchange 2010 in many ways, the 3 main areas of differentiation are; significantly lower TCO, same experience on many different user environments and an easily xtensible and open platform. Join 500 Million+ users, including corporation such as Dell, Vodafone, Sage, Texas Instruments on ZIMBRA.

A recurring problem that many organizations face is aging email servers. If you don't upgrade to new machines, there is an increasing chance that you will incur recurrent, or worse, a catastrophic failure of your critical email services. It is unlikely that your organization will be in existence for very long without 100% reliable email services.

Upgrade to new servers?

Expensive and you still have the expenses and headache of managing them, continual investment in expensive software licenses and IT resources. C-NEST can advise on or even completely redesign your on-premise server installations or offer hosted hardware solutions, ameliorating at least some of your headache and expense.

Rent virtual servers?

Perhaps an option, but you remain reliant upon Microsoft Exchange and continual investment in expensive software licenses and lose out on the many previously highlighted advantages of ZIMBRA. C-NEST can provide instantly deployable pre-configured cloud based VMs if this is your preferred option.

THE WISE OPTION : Outsource to C-NEST's ZIMBRA solutions

Outsource your email needs to C-NEST, we provide local, expert ZIMBRA hosting, consultancy and support services. C-NEST offers an affordable, secure, stable, and scalable hosted email collaboration solutions for organizations of any size. Alternatively, we can provide the skills and services you need to operate your on-premise ZIMBRA solutions. C-NEST will introduce you to the CLOUD and ensure a seamless transition from your restrictive and expensively licensed email solutions to open, evolving, flexible, completely reliable and collaborative cost saving solutions.
